MEMORANDUM FOR: Deputy Director for Administration

SUBJECT

: Report of Voluntary Separations, GS-12 and Above Staff Employees -

Second Quarter FY-76

1. This memorandum is for your information only.

- 2. Attached herewith are seven interview reports on staff employees, GS-12 and above, who resigned during the period 1 October through 31 December 1975. A statistical comparison of voluntary separations at this grade level from FY-70 to the present is also attached.
- 3. The seven resignees (6 males and 1 female) were from the DCI area (1), DDA (1), DDI (2) and DDS&T (3); and were in grades 12 (3), 13 (1), 14 (2) and 18 (1). Their years of government service ranged from 2 to 13 (for an average of 8); and their ages from 29 to 37 (for an average of 35). The number of transfers to other government agencies during this quarter (2 of 7 representing 29%) compares favorably to a 5-year average of 26%. With the exception of one employee, the reasons given by these resignees for their decisions to leave the Agency were not unusual (advancement: 2; career change: 2; family or personal: 2). The one exception was a GS-14 Commo Officer whose very strong disagreement with highlevel Agency policy--which he had brought to the attention of senior Agency officials--caused him to resign after more than 13 years service without any prospect of other employment.
 - 4. The number of voluntary resignations in this quarter (7) is the second lowest recorded for a second quarter since FY-70 and is lower by 4 than the previous quarter of FY-76. As the statistical summary in paragraph 5 indicates, the total of 18 voluntary resignations in grades GS-12 and above for the first two quarters of FY-76 is little more than one-half of the average for the first two quarters (34) of the previous six Fiscal Years. We are unable at this time to draw any meaningful conclusion from the sharp drop in the number of resignations in this group; however, we suspect it is probably reflective of the labor market and is possibly temporary.
